The sheer amount of detail that goes into some of his work is extraordinary and you will have plenty of time to admire his work. We continue our scenic drive to our second stop for the day and visit a local rubber plantation. Here you will learn more about the workings of the local rubber industry, how the latex is collected, cleaned and dried before being shipped to an outside rubber factory. After this excursion, we will take a ferry north of Stung Trong and cross the mighty Mekong River. It is the twelfth longest river in the world and flows from the heights of the Tibetan Plateau to the South China Sea, some 4,500 km from its source. It is the lifeblood of many people, and its impressive size and power can only be experienced firsthand. On the east side of the Mekong is the old French colonial town of Chlounge. In this peaceful and traditional town, we will spend the night in the former governor's mansion built in 1916, where we can experience Cambodia's colonial past first hand.
